Assignment 2

Assignment 2 will consist of exercise 11.1.

Instructions for Assignment 2 can be found in Lesson 11 exercise sheet on D2L (*Week 5 material*). The UML diagram can be found on D2L (*Week 4 > Lab material > LabC_Review-model_solution*). An example main can be found in the course repository (*Lesson11*).

Make sure that you are using the model solution which was provided, rather than the solution you may have submitted for Lab C.

You will need to submit Assignment 2 in the appropriate dropbox before it closes, following the general submission instructions (*Content > Assignments and Labs*). Don't forget to include the correct `edu.ucalgary.oop` package.
